WASTEWATER
RESIDENTIAL SERVICE

AVAILABILITY

Available in the Las Cruces Utilities wastewater service area for the exclusive use of a single water-metered family residence for domestic purposes. Service to buildings attached to the residence, including garages and other minor buildings for the use of the residents, may also be through the residential meter. Service to a residence, which is used in part for commercial purposes but predominantly for residential purposes, shall be served under this rate schedule.

RATE

The bills are the sum of:

Access Charge
Per month................................................................. $7.13

Volume Charge
First 3,000 gallons.................................................. $1.72
Over 3,000 gallons...................................................... $3.27

Tax and Franchise Fee
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

Landscape Metered Customers
For customers with a landscape meter, the volume shall be based on 100% of water consumed each month, as measured through the non-landscape meter, and will be billed monthly.

Applicable To Options A & B:
Initially all customers will be billed under Option A unless customer notifies Customer Service that they elect to be billed under Option B. Once an option is selected a customer shall remain under that option until the next time the billing system calculates the winter average billed consumption (typically in the March billing cycle), but in no case for less than twelve (12) consecutive months.

Option A
The unit of measure for calculating the volume charge per separate meter dwelling unit with city water shall be 1,000 gallons. Volume shall be based on 90% of the average of water consumed in December, January, and February billing cycles. If the customer history at their active service site is not available, then the residential class water average will be used in the calculation. This volume will be calculated annually and billed monthly as of the billing month of March of each year.
WASTEWATER
RESIDENTIAL SERVICE

The unit of measure for calculating the volume charge per dwelling unit without city water shall be 1,000 gallons. The volume shall be set at a monthly fixed amount equal to 90% of the residential class water average billed in December, January, and February. This monthly fixed volume also applies to customers that are connected to city water and wastewater system but rely on an alternate potable water source. This volume will be calculated annually and billed monthly as of the month of March of each year.

**Option B**
The unit of measure for calculating the volume charge per dwelling unit with city water shall be 1,000 gallons. Volume shall be based on 90% of the average of water consumed for each month during a period of twelve (12) consecutive months. Once this option is chosen a customer shall remain under Option B for a twelve (12) month minimum period.

Option B is not available to customers without city water.
AVAILABILITY

Available in the Las Cruces Utilities wastewater service area for any establishment engaged in the operation of a business, or institution, whether or not for profit.

Such enterprises will include, but not be limited to, clubs, hotels, motels, schools, hospitals, multi-unit complexes, churches, parks, and municipal, county, state and federal buildings.

This rate applies to such customers whose monthly billed water volume is less than 50,000 gallons of non-landscape metered water consumption for at least three (3) of the twelve (12) months of the rate classification review period. The rate classification is a period of twelve (12) consecutive billing months that Las Cruces Utilities will review annually to determine the customer’s appropriate rate classification. A customer’s rate classification will not be changed in the absence of at least twelve (12) consecutive months of billing history.

RATE

The bills are the sum of:

Access Charge
Per month .................................................................................. $22.29

Volume Charge
Per 1,000 gallons ........................................................................ $1.54

Tax and Franchise Fee
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

Landscape Metered Customers
For customers with a landscape meter, the volume shall be based on 100% of water consumed each month, as measured through the non-landscape meter, and will be billed monthly.

Applicable To Options A & B:
Initially all customers will be billed under Option A unless the customer notifies Customer Service that they elect to be billed under Option B. Once an option is selected a customer shall remain under that option until the next time the billing system calculates the winter average billed consumption (typically in the March billing cycle), but in no case for less than twelve (12) consecutive months.
Option A
The unit of measure for calculating the volume charge per separate meter with city water shall be 1,000 gallons. Volume shall be based on 90% of the average of water consumed in December, January, and February billing cycles. If the customer history at their active service site is not available, then the small commercial class water average will be used in the calculation. This volume will be calculated annually and billed monthly as of the month of March of each year.

The unit of measure for calculating the volume charge without city water shall be 1,000 gallons. The volume shall be set at a monthly fixed amount equal to 90% of the small commercial class water average billed in December, January, and February. This monthly fixed volume also applies to customers that are connected to city water and wastewater system, but rely on an alternate potable water source. This volume will be calculated annually and billed monthly as of the month of March of each year.

Option B
The unit of measure for calculating the volume charge with city water shall be 1,000 gallons. Volume shall be based on 90% of the average of water consumed for each month during a period of twelve (12) consecutive months. Once this option is chosen a customer shall remain under Option B for a minimum of twelve (12) months.

Option B is not available to customers without city water.
WASTEWATER

LARGE COMMERCIAL SERVICE

AVAILABILITY

Available in the Las Cruces Utilities wastewater service area for any establishment engaged in the operation of a business or institution, whether or not for profit.

Such enterprises will include, but not be limited to, clubs, hotels, motels, schools, hospitals, non-residential multi-unit complexes, churches, parks, and municipal, county, state and federal buildings.

This rate applies to customers whose monthly billed water volume is equal to or greater than 50,000 gallons of non-landscape metered consumption for ten (10) or more months of the twelve (12) month within the rate classification review period. The rate classification is a period of twelve (12) consecutive billing months that Las Cruces Utilities will review to determine the customer’s appropriate rate classification. A customer’s rate classification will not be changed in the absence of at least twelve (12) consecutive months of billing history.

RATE

The bills are the sum of:

Access Charge
Per month ........................................................................................................... $55.32

Volume Charge
Per 1,000 gallons .......................................................................................... $2.17

Tax and Franchise Fee
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

Landscape Metered Customers
For customers with a landscape meter, the volume shall be based on 100% of water consumed each month, as measured through the non-landscape meter, and will be billed monthly.

The unit of measure for calculating the volume charge per establishment with city water shall be 1,000 gallons. Volume shall be based on 100% of water consumed for each month’s billing cycle.

The unit of measure for calculating the volume charge per establishment without city water shall be 1,000 gallons. Volume shall be based on 100% of the establishment’s twelve (12) month average water consumption, as shown on customer’s water bills. Customer shall provide Las Cruces Utilities with a copy of the water bills or Las Cruces Utilities will use the large commercial class water average.
LAS CRUCES UTILITIES

WASTEWATER

LARGE MULTI-UNIT SERVICE

AVAILABILITY

Available in the Las Cruces Utilities wastewater service area for the exclusive use of multiple dwelling, master metered, residential units such as apartment complexes, townhomes, and mobile home parks.

This rate applies to customers whose monthly billed water volume is equal to or greater than 50,000 gallons of non-landscape metered consumption for ten (10) or more months of the twelve (12) month rate classification review period. A customer’s rate classification will not be changed in the absence of at least twelve (12) consecutive months of billing history.

RATE

The bills are the sum of:

Access Charges
Per month ................................................................. $55.32

Volume Charge
Per 1,000 gallons .......................................................... $2.17

Tax and Franchise Fee
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

Landscape Metered Customers
For customers with a landscape meter, the volume shall be based on 100% of water consumed each month, as measure through the non-landscape meter, and will be billed monthly.

For existing customers without landscape metering and where the cost to retrofit the existing water service for landscape meter is documented, reviewed and deemed by the Utilities Director as cost prohibitive, the wastewater billing will 90% of the average of water consumed in the billing cycles of December, January, and February. The unit of measure for calculating the volume charge per establishment with city water shall be 1,000 gallons.

Customers without city water
For customers where water service is not provided by the city, the billing volume for wastewater services will be 90% of the average water consumed in the months of December, January, and February. The customer shall provide Las Cruces Utilities with a copy of all water bills or consumption documentation associated with the wastewater service. In the event the establishment’s water consumption data is not provided, Las Cruces Utilities will calculate the residential system wide wastewater average and will multiply by the number of housing units in the multi-unit service establishment (includes mobile home parks, apartment complexes, and town houses). This volume will be calculated annually and billed monthly as of the month of March of each year. The unit of measure for calculating the volume charge per establishment without city water shall be 1,000 gallons.
AVAILABILITY

Available in the Las Cruces Utilities wastewater service area for any industrial users who are regulated or monitored under the City’s Industrial Pollution Prevention Program, whether or not for profit.

Such enterprises shall include certain public institutions and industries regulated under 40 CFR 403 (federal regulations) and the City’s Liquid Waste Disposal Ordinance (No. 2488). Industrial customers whose Bio-Oxygen Demand (BOD) and Total Suspended Solids (TSS) sewer discharge loadings exceeding the thresholds stated in the Loading Charges section below, will be billed for sewer BOD and TSS loading.

RATE

The bills are the sum of:

Access Charge
Per month ......................................................................................... $656.07

Volume Charge
Per 1,000 gallons ................................................................................ $3.42

Loading Charges ($/LB)
BOD > 185 mg/L ........................................................................... $0.64
TSS > 270 mg/L ........................................................................... $0.63

Tax and Franchise Fee
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILL COMPUTATION

Formula: \[ AC + V_1 \times J + V_2 \times [A \times (BOD - 185) \times 8.34 + B \times (TSS - 270) \times 8.34] \]

The unit of measure for calculating the volume charge per establishment shall be 1,000 gallons. Volume shall be 100% of water consumed each month’s billing cycle or as determined by an approved direct wastewater flow measurement.
# WASTEWATER

## SPECIAL CONTRACT SERVICE – TOWN OF MESILLA

### AVAILABILITY

Available by contract to the Town of Mesilla.

### RATE

The bills are the sum of:

- **Access Charge**
  - Per month: $1,565.03

- **Volume Charge**
  - Per 1,000 gallons: $1.92

### Tax and Franchise Fee

Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

### BILLING UNITS

The unit of measure for calculating the volume charge shall be 1,000 gallons. Per the Second Amended Agreement for the Collection and Treatment of Wastewater from the Town of Mesilla approved by the Utilities Board.
## WASTEWATER

### SPECIAL CONTRACT SERVICE – COUNTY VILLAGES

### AVAILABILITY

Available by contract to County Villages.

### RATE

The bills are the sum of:

**Access Charge**
Per month per connection within the County Village service area $2.74

**Volume Charge**
Per 1,000 gallons $2.31

**Tax and Franchise Fee**
Applicable Tax and Franchise Fee assessed by a Governmental Authority and not included in Cost of Service Rates.

### BILLING UNITS

The unit volume of measure for calculating the volume charge shall be 1,000 gallons. Volume shall be based on flow meter information read by the Las Cruces Utilities Industrial Pollution Prevention Program.
Available in the Las Cruces Utilities West Mesa Industrial Park wastewater service area for any industrial users who are regulated or monitored under the City’s Industrial Pollution Prevention Program, whether or not for profit.

Such enterprises shall include certain public institutions and industries regulated under the New Mexico Water Quality Control Commission regulations and the City’s Liquid Waste Disposal Ordinance (No. 2488).

RATE

The bills are the sum of:

**Access Charge**
Per month $927.57

**Volume Charge**
Per 1,000 gallons $4.64

**Loading Charges ($/LB)**
- Bio-Oxygen Demand (BOD) (> 750 mg/L) $0.64
- Total Suspended Solids (TSS) (> 750 mg/L) $0.63
- Total Dissolved Solids (TDS) (> 750 mg/L) $0.15
- Nitrogen (>60 mg/L) $0.09

**Tax and Franchise Fee**
Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

The unit of measure for calculating the volume charge shall be per 1,000 gallons. Volume shall be based on 100% of water consumed each month’s billing cycle or as determined by an approved direct wastewater flow measurement.
$150 Unable to Connect Service Charge
This charge shall be made when Las Cruces Utilities is notified by the customer or customer’s representative that the service site is ready for service and connection and utility personnel have been scheduled to physically connect service, but are unable to connect the service due to, among other things, work site obstructions or incomplete service installation necessary for the utility to perform the necessary and appropriate connection.

APPLICABILITY

All wastewater service provided by Las Cruces Utilities shall be subject to the terms of this rider schedule.

DEVELOPMENT RATE RIDER (DRR)

Applicable Development Rate Rider established by order of the Utilities Board enabling Las Cruces Utilities to recover or refund Development expenses for which ratepayers are responsible exceeding those expenses not included in base rate charges. The recovery or refund factor shall be calculated based on the total treated wastewater outflow for the reconciled fiscal year and shall be reflected on customer bills as a charge in dollars and/or cents per 1,000 gallons billed.

Tax and Franchise Fee

Applicable Tax and Franchise Fee are assessed by a Governmental Authority and not included in Cost of Service Rates.

BILLING UNITS

The unit of measure for calculating the volume charge shall be 1,000 gallons.
