

Using Smart Alec Wireless Printing on an iOS Device

<p>1. Install the Smart Alec @ Your Library app from the App Store.</p>	
<p>2. Open the app and sign in with the Smart Alec account credentials you created the first time you used Smart Alec. (You can use either your library card number and PIN or your email address and PIN to sign in.)</p>	
<p>3. Click on the Accept button.</p>	
<p>4. Exit the app. The app does not need to be open in order to print. The app does however have to be signed in with your account credentials in order to connect to the Smart Alec printer.</p>	
<p>5. Open the item you want to print. Click the "Share" icon.</p>	
<p>6. On the next page click the black and white print icon at the bottom of the page.</p>	

<p>7. A Printer Options window will pop up. Use your thumb and forefinger to pinch and zoom the preview. It will get larger and then open in a new window.</p>	
<p>8. On the zoomed page click the Share icon.</p>	
<p>9. From the Share options choose the Smart Alec Printing icon.</p> <ul style="list-style-type: none"> You may need to select the More option and turn the Smart Alec option on to see the Smart Alec Printing icon. Once it is turned on, you can select the Smart Alec Printing icon. 	
<p>10. Your item will be uploaded. When it is finished, a link to send will appear. Click on "Send." It will be sent to the Smart Alec print queue.</p>	
<p>11. Optional: Open the Smart Alec app to view a list of your active print jobs. (You can print without opening this app.)</p>	
<p>12. Go to the Print Release Station at Branigan Library's Public Computer Lab and sign on. You can use either your library card number and PIN or your email address and PIN to sign in.</p>
