AUGUST 11-13, 2017  
DACC CERAMICS STUDIO, LAS CRUCES, NM

## THROWING, SPRAYING AND ^6 ELECTRIC FIRING

This workshop is designed to help you get the most out of YOUR glazes, applied to YOUR pots and fired in YOUR electric kiln. Steven Hill will demonstrate the basic techniques of spraying and also spend time with more advanced theories of layering and blending glazes. He will cover ^6 glazes and briefly discuss lowering the maturation point of ^10 glazes to ^6. And suggest ways to experiment with the layering process to create your own unique look.

The workshop includes glazing and firing of your own pots. Go to [stevenhillpottery.com](http://stevenhillpottery.com) to see his work.
