

Las Cruces Police Department

Strategic Business Plan

Mission Statement

The mission of the Las Cruces Police Department is to provide community-focused public safety and law enforcement services to area residents, businesses and visitors so they can live and thrive in a safe, peaceful environment.

Issue Statements

Issue 1 - Communications

Insufficient and ineffective communication with the community and within the organization, if not properly addressed, will result in:

- Increased safety risk to the public and staff
- Poor allocation of resources
- Misaligned and unproductive service delivery to the public
- Decreased staff morale and productivity
- Negative public perception of the Police Department
- Loss of trust (with public and department personnel)

Issue 2 - Recruitment

The challenge of attracting, developing and retaining officers through a 25-year career, if not properly addressed, will result in:

- Increased safety risk to the public due to more crime
- Decreased resources to do the job
- Decreased number of qualified officers
- Increased cost of recruiting and training
- A workforce that does not reflect the diversity of the community
- Loss of expertise, experience and intellectual capital
- Decreased quality of services delivered
- Increased exposure to litigation
- Loss of trust in the department

Issue 3 - Crime

The ever-present threat of crime, specifically property crime and illegal drug use, if not properly addressed will result in:

- Increased victimization, and people not feeling safe and secure within the community
- Decreased Economic Development

- Increased relocation of high school/college graduates
- Decrease in individuals seeking to retire in Las Cruces
- Increased unemployment rate
- Increased reliance on social services
- Less desirable place to live, work, play!

Issue 4 – Mental Illness & People in Crisis

Consistent issues of police contact with the mentally ill and people in crisis results in a high demand of allocated resources, which if not properly addressed, will result in:

- Depletion of police resources for other critical law enforcement functions
- Heightened public safety concerns
- Increased exposure to litigation
- Continued interruption of treatment services
- Strained police/community relations

Issue 5 - Managing Community Expectations

The community's lack of understanding of the criminal justice system and the role of police services in the criminal justice process, if not properly addressed, will result in:

- Increased number of non-police related calls
- Depletion of police resources for critical law enforcement services
- Increased confusion and frustration with the criminal justice system
- Strained police/community relations
- Negative perception of the Police Department's effectiveness

Issue 6- Demand and Services Mismatch

The continued expectations for personalized, time intensive services from law enforcement coupled with complex investigations and an increase in population, if not properly addressed, will result in:

- Increased patrol response times
- A decrease in time available to assist with crime victims
- A decrease in proactive initiatives within the community
- Minimized officer time for proactive community policing
- Minimized personal interaction between codes enforcement and animal control officers and the community
- Increased officer stress and risk of burn out
- Increased dissatisfaction from community stakeholders

Issue 7 – Technology

The increased demand by the public and the judiciary for technological advancement, and the inability to secure public safety funding for crime prevention strategies and infrastructure, if not properly addressed, will result in:

- Missed opportunities for advanced technology such as specialized equipment and advanced training
- Decreased efficiency in Police Department operations
- Unsuccessful crime prevention and/or an increase in crime
- A decrease in proactive initiatives within the community
- Decreased personalized assistance with crime victims (Victim Assistance Unit)
- Increased dependence on City General Fund resources

Strategic Results

Strategic Result 1 – Recruitment and Retention

Without lowering the high standards currently in place, the Las Cruces community will experience an adequately staffed Police Department consisting of well qualified and well trained individuals who are reflective of the diverse community they serve, as evidenced by:

- By 2019, police personnel will be trained in a modern, professional Police Academy and training facility in Las Cruces that produces community-specific training that aligns with the local culture. (Administration)
- By 2020, the Las Cruces Police Department staff will more closely reflect the cultural and ethnic diversity of the community. (Law Enforcement Training)
- By 2022, the Las Cruces Police Department turnover rate will be at or less than the generally acceptable national average of 7%. (Law Enforcement Training)
- By 2022, 50% of recruits entering the Las Cruces Police Academy will graduate and successfully complete the standard 1-year probationary period. (Law Enforcement Training)
- By 2022, 5% of Police Academy applicants will be qualified to enter the Las Cruces Police Academy. (Law Enforcement Training)
- By 2022, the percentage of female officers will be at or above the national average of 13.5%. (Law Enforcement Training)

Aligned with Issue Statements 1,2,3,6

Strategic Result 2- Technology

Technology is a key resource for fighting and reducing crime, ensuring officer and public safety, and keeping the public informed on important police and public safety matters. Technology is an essential asset to the Department's implementation of the 4 pillars of crime control:

1. Accurate and Timely Intelligence
2. Rapid Deployment of Personnel and Resources
3. Proactive Tactics
4. Relentless Follow-Up and Assessment

This technology shall be deployed in the following ways:

- By 2020, the Department will have a dedicated resource to secure grants for technology. (Administration)
- By 2020, residents will have easier digital access to the following: police reports, case status information, ordinances, performance reports, animal control information, codes enforcement information and Department employment information. (Law Enforcement Support Services)
- By 2020, the City, working with the Dona Ana Office of Emergency Management and the New Mexico State Department of Homeland Security, will sponsor legislation that facilitates regional interoperable public safety communications. (Administration)
- By 2020, public safety vehicle replacement standards will be established and met. (Administration)
- By 2021, intelligence gathering, analysis and the dissemination of information will be centralized in a technology supported investigative unit. (Administration)

Aligned with Issue Statements 1,2,3,4,5,6,7

Strategic Result 3- Crime

The Las Cruces community, residents, businesses and visitors can be assured the Las Cruces Police Department is doing everything within its power and resources to help them feel and be safe. Further, the Department will be accountable and transparent by measuring and reporting our performance as follows:

- By 2019, police officer presence will be increased in the neighborhoods through the implementation of the Police Service Aide program. (Traffic)
- By 2019, the number of narcotic drug sale cases brought forth for prosecution will be increased from 146 to 160. (Criminal Investigations)
- By 2020, 75% of residents will say they feel safe in the City of Las Cruces as measured by the National Citizen Survey. (Administration)
- By 2020, the case closure rate will be 85% or above (Criminal Investigations)
- By 2020, the recidivism rate for identified felony offenders will be at or below the 2019 baseline. (Criminal Investigations)
- By 2022, the annual violent crime rate will be at or below the 5 year average of 280 reported incidents. (Patrol)
- By 2022, the annual property crime rate will be at or below the 5 year average of 4600 reported incidents. (Criminal Investigations)
- By 2022, the annual number of traffic fatalities will be at or below the 5 year average of 6. (Traffic)

Aligned with Issue Statements 1,2,3,6

Strategic Result 4- Communications

Our community will experience clear, consistent and engaging two-way communication with the Police Department through an increase in sustainable community partnerships as evidenced by:

- By 2019, the Las Cruces Police Department Citizen's Academy will be re-established. (Community Partnership)
- By 2020, the City of Las Cruces will fully implement the Everbridge Nixle system. (Intel)
- By 2020, the Las Cruces Police Department will double the number of Neighborhood Watch Programs. (Community Partnership)

Aligned with Issue Statements 1,2,3,5,6

Strategic Result 5- Mental Health/People in Crisis

Across the nation and in our own state of New Mexico, it is fair to say there is a scarcity of resources for persons experiencing mental health crisis. The call volume for persons experiencing mental health crisis has continued to rise over the past few years and currently represents a relatively significant portion of the Police Department's responses to 911 calls for service. The Police Department remains concerned about the impact this trend has on our resources and ability to fight crime in the community.

Unfortunately, there are insufficient Mental Health resources in Las Cruces to provide services, particularly crisis services. It is expected that mental health related calls for service will continue to rise. To do our part to address the inadequacy of mental health resources and to be as prepared as much as possible to help in these crisis situations, we commit to the following:

- By 2020, persons experiencing narcotic addiction will have access to a fully functional pre-arrest diversion program. (Administration)
- By 2020, 70% of department personnel will successfully complete Advanced Crisis Intervention Training. (Professional Development)
- By 2020, a memorandum of understanding will be established with local mental health partners where agreed upon standards will be set for calls for service for mentally ill patients and individuals in crisis. (Community Partnership)
- By 2022, the community will experience a fully staffed Crisis Intervention Team with (1) dedicated Crisis Intervention Officer available 24 hours/day. (Patrol)
- By 2022, working with our partners, the Crisis Triage Center will be operational and staffed to effectively service mental health patients in crisis. (Admin)

Aligned with Issue Statements 1,3,4,5

Strategic Result 6- High-Performing Organization

Our community will experience a high-performance, customer-focused and results oriented organization, as evidenced by:

- Beginning in 2019, all department employees will know what is expected of them and how they align and contribute to the goals of the Department as evidenced by their annual work plans and performance conversations being aligned with the Department Strategic Business Plan. (Professional Development)
- By 2019, 75% of City of Las Cruces department and agency partners will say they have a positive collaborative relationship with the Police Department that assists them in furthering their mission. (Community Partnership)
- By 2020, 80% of Board/Commission members will report that they receive the information they need to make informed decisions. (Administration)
